

Your Performance Our Guarantee

Never in downtime when you rely on us

Ex-Stock Parts - Prompt Delivery

Phoenix Engineers started as a service company, and we are still. We understand the urgency of delivering to you replacement parts when you need them. The same expertise and commitment to excellence that makes us a world-class centrifuge manufacturer is what makes us a world-class parts supplier you can trust. This is where it all begins. We are continually expanding our parts inventory, warehousing them in facilities throughout key global distributors and offering the quickest response times possible.

- Along with G-Centri-Force OEM parts, we carry the highest quality parts for all brands of centrifuges.
- We leverage our global supplier network for rapid prototyping and manufacturing of parts like seals, wear components and machined parts
- Preventative maintenance, critical wear and ancillary parts are all readily available for prompt (often overnight) shipment
- 20,000 sq. ft. global distribution center offers the largest in-stock selection of centrifuge parts available for same day shipment

Broad Knowledge, Across Broad Applications

Any Where, Any Brand, Anytime

- After 20 years of analysis across ALL centrifuges brands, we have the expertise and know-how to manufacture most parts on all new and old centrifuges.
- Our experienced engineering teams reverse-engineer and work out the weaknesses of each part based on the wear patterns from the original OEM part and ultimately create a stronger part for optimized performance.
- Our in-depth centrifuge manufacturing and service and repair know-how enables us to optimize centrifuge parts design across a range of municipal and industrial dewatering and thickening applications i.e almost 20+ industries
- Our extensive parts library of designs and drawings includes newer and older centrifuges
- We evaluate competitive designs with every repair to offer better solutions to our customers

Phoenix Engineers Defines Reliability

- Quality control is a standard procedure and we honor standard 100% replacement guarantee against material manufacturing defects or improper workmanship on ALL parts.

Service that Continues

Nationwide and global on-site field-service capabilities, 24 hours a day, 7 days a week, including:

- Repair services - includes centrifuge rebuild
- Preventative maintenance
- Process evaluations/optimization
- Installation assistance
- Machine inspection
- Vibration analysis and other diagnostic services
- Operator and maintenance training
- Maintenance agreements
- Flight repair and replacement
- High speed dynamic balancing
- Control Panel Automation and upgrades
- ISO 9001:2015 & CE

More Value

Phone Consultations

With our years of experience, we can diagnose many problems over the phone for our customers, saving time and money

Rentals

Handling seasonal processing requirements or for temporary maintenance requests, we offer short and long-term rental or leasing options

Remote Monitoring

A proprietary remote solution integrated into the control panel, providing 24/7, real-time text and email alerts for equipment status changes
